

Sheldon Frith

Email: sheldonfrith@hotmail.com

Phone: 289-527-2661

I am a 27 year-old self-taught programmer. I have been programming for years, but only recently decided to pursue it seriously as a career.

Dev Portfolio @ sheldonfrith.com

I specialize in full-stack web development (Javascript, React, Node.js, Express.js) but I have previous experience with Java, Python, Visual Basic, and Wordpress.

Soft-Skills

Self-motivated and hard-working

Those traits are necessary prerequisites for any farmer, and farming has been my primary occupation for many years. Please call my references if you have any doubts about my work ethic!

Open minded, comfortable in unfamiliar situations

I grew up in Brazil, and have lived in many places including BC, SK, NWT, and Ontario. I've traveled in Asia and through all the Americas (North, Central and South). I have friends all over the world, and have a basic understanding of Portuguese and Spanish (very rusty right now from dis-use).

Good communicator, mediator, and manager

I have lots of experience managing and training other workers at several different jobs (Front Desk Ltd, Northern Farm Training Institute, Buffalo Air Express, Fazenda Meats). I've taught adult learning courses, have experience with sales, and I'm always professional.

Mentally resilient and able to handle high stress situations

I've spent over 2 months continuously in silent meditation retreat. Tested myself in multiple wilderness survival situations lasting as long as a month. And I train martial arts and powerlifting regularly to keep my mind and body sharp.

Work History

Front Desk Ltd

Construction
Caledon ON, May 2019-Aug 2020
